## Career Objective

As a fresher I am seeking job opportunities as a Java Developer where I can leverage my expertise in Java, HTML, CSS, JavaScript and Oracle to design and develop innovative web application and websites, while continuously enhancing my technical expertise and advancing my career in software development.

## Education

<b>Satyendra Narayan Sinha College</b> <i>Bachelor of Computer Applications</i>	<b>2021 - 2024</b> 71%
<b>S.J.S College Arwal</b> <i>Higher Secondary Certification</i>	<b>2019 - 2021</b> 59%
<b>P.P.M School Venkateshwar Nagar</b> <i>Secondary School Certification</i>	<b>2018 - 2019</b> 59%

## Projects

<b>Enterprise Banking Transaction System</b>	<b>Core Java   JDBC   Servlet   JSP   Oracle Database</b>
<ul style="list-style-type: none"><li>Developed a banking system where users can create accounts, perform fund transfers, and view transaction history, while admins can oversee user activity and manage records</li><li>Used <b>Core Java</b> for business logic, <b>JDBC</b> for database connectivity, <b>Servlets and JSP</b> for handling request and dynamic UI, and <b>Oracle</b> for backend data management</li></ul>	
<b>Online Digital Library</b>	<b>Java   Oracle Database</b>
<ul style="list-style-type: none"><li>Formulated a library that allows users to search, read and download books without login</li><li>Implemented using <b>Java</b> for application logic, <b>Oracle</b> for secure data storage, <b>MVC architecture</b> to ensure a clean, modular, and maintainable structure</li></ul>	
<b>Job Portal System</b>	<b>Java   Oracle Database</b>
<ul style="list-style-type: none"><li>Create a job portal where seekers can apply for jobs and track their applications, while recruiters manage postings and interviews</li><li>Built using <b>Java</b> for application logic, <b>Oracle</b> for secure data storage, and <b>HTTP Session</b> for secure logic and access control</li></ul>	

## Internships

<b>Deloitte</b> <i>Deloitte Australia Technology Job Simulation</i>	<b>July 2025</b> <i>Remote</i>
<ul style="list-style-type: none"><li>Completed job simulation involving development and coding tasks</li><li>Wrote a proposal for creating a dashboard solution</li></ul>	
<b>Accenture</b> <i>Accenture Nordics Software Engineering</i>	<b>July 2025</b> <i>Remote</i>
<ul style="list-style-type: none"><li>Completed Accenture's virtual program where I learned how software projects are planned, designed, and built in a real-world team setup</li></ul>	

## Technical Skills

**Languages:** C, Java, HTML, CSS, JavaScript  
**DataBase:** Oracle (SQL & PL/SQL)  
**Developer Tools:** GitHub, VS Code, Eclipse IDE, SQL Plus

## Certification

<b>Java Full Stack Developer (Naresh IT - Hyderabad)</b>	<b>Nov 2024 – Present</b>
<b>Software Developer Associate (Nielit - Patna)</b>	<b>Apr 2023 – Jun 2023</b>
